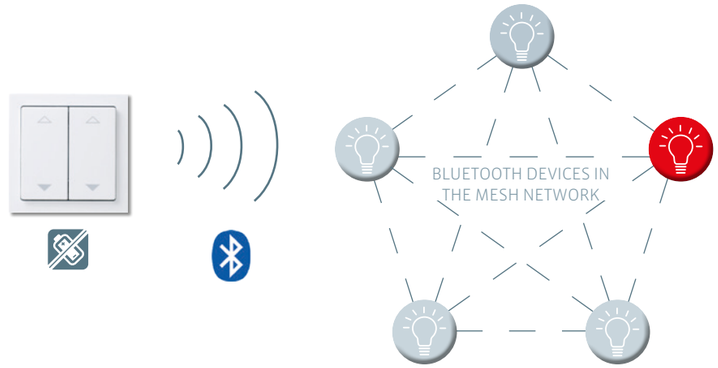
WIRELESS SWITCHES FOR BLUETOOTH LIGHTING SYSTEMS

Bluetooth solutions gain more and more importance for modern lighting controls. Thanks to the wireless and batteryless switches of Thermokon 2,4 GHZ-BLE lighting systems can be controlled easily. The switches are ideal for switching and dimming of lights and for the call of lighting scenes.



*An integrated micro energy generator enables the production of electric current upon button actuation so that a RF telegram can be transmitted (Energy Harvesting).

HOME OF SENSOR TECHNOLOGY

LEADER FOR GOOD REASONS

For over 30 years, THERMOKON is recognized worldwide for leveraging standards in intelligent buildings with engineering, innovation and quality “Made in Germany”.
Thanks to the development and production of sophisticaed sensors and sensor systems we are creating an additional benefit for our customers all over the world. We focus on efficiency, sustainability and openness to new fields of technology as well as a close cooperation and thorough dialogue with our clients.

As a leader for innovation with a broad scope of applications we are continuously developing our portfolio further and offer decisive benefits with regards to product-related values, customized solutions and engineering. Our complete range of products is designed to energy-efficient buildings striving for an „A“ classification according to DIN EN 15232.
